

A message from Nurse Wrobel and the Lorax:

- Everyone is doing a great job with wearing their masks, washing their hands and keeping a social distance of 6 ft. Keep up the great work!
- Please remember, if you need to sneeze or cough, keep your mask on.
- Change your mask if it becomes wet or soiled.
- Make sure the mask fits properly and does not slip down while talking.

I'm looking forward to being able to once again see your child's grin and chin and nose and lips and entire face! I hope it's soon!

*Nurse Wrobel*
